Dr Sir.

I have some gold dust and nuggets in practically pure state, also some very fine gold bearing quartz, in which the traces of gold are clearly visible to the naked eye, & in some cases in good sized nuggets attached.

These came into my possession through the estate of my Father, who was an old "forty niner", and recently deceased. I wish to convert this into ready funds for the benefit of my Mother, I don't suppose it will amount to much, but am told you will purchase, reduce, and remit the value of such, If so please inform me what it is necessary to do in the

Director U.S. Mint  
Phila.

Dr. Sir.

I have some gold dust and nuggets in practically pure state, also some very fine gold bearings quartz, in which the traces of gold are clearly visible to the naked eye, & in some cases in good sized nuggets attached.

These came into my possession through the estate of my Father, who was an old "forty niner", and recently deceased. I wish to convert this into ready funds for the benefit of my Mother.

I don't suppose it will amount to much, but am told you will purchase, reduce, and remit the value of such. If so please inform me what it is necessary to do in the
